

CAMO

HIDDEN DECK FASTENING SYSTEM

The **CAMO™ Hidden Deck Fastening System** is easy to use, affordable, secure and guaranteed against rust and corrosion for the life of the project. CAMO™ works on any treated lumber, hardwood, cedar, composite or PVC deckboard. **NO PRE-DRILLING REQUIRED.**

The patented **CAMO™ Deck Screws** create a beautiful, FASTENER-FREE deck surface. EASY to install using the Marksman™ tool, CAMO SECURES solid or grooved deck boards directly to the joist, reducing board movement. Side-angle entry secures the board to the substructure and keeps the fasteners off the surface of the deck.

CAMO MARKSMAN® TOOLS

Edge Pro™

- High-speed, collated hidden deck fastening system
- For use with treated and other softwood lumber, but can be used on most types of decking
- Heavy-duty, contractor-grade tool
- No installed gap between boards
- For additional gap options, can be used with secondary spacers

Marksman Pro®

Automatic 3/16"
SPACING

Marksman Pro®-X1

Automatic 1/16"
SPACING

- For use with treated wood and other soft woods due to the shrinkage that occurs in those types of deckboards
- Fits any 5-1/4" to 5-3/4" deckboard
- Dual screw guides fasten both sides with single to placement
- Clamping action grips deckboard
- Heavy-duty, contractor-grade tool

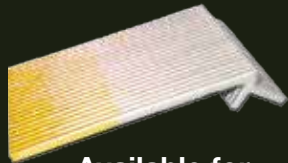

By Far The Fastest & Easiest Decking System You'll Ever Use!

- Easiest
- Fastest
- Invisible
- Strong
- Won't Rust

A single package of 175 patented, collated, stainless steel fasteners will do 100 square feet of 6" decking when installed 16" on center.

Available for T&G Decking

Available for 2-3/4" • 3" • T&G

HIDFAST is the fastest and easiest hidden fastening system for virtually all decking types

PATENTED, COLLATED, STAINLESS STEEL, HIDDEN FASTENER DECKING SYSTEM

- HIDfast can install 8 boards 8 feet long in a little over 3 minutes.
- Conventional 2-1/2" deck screws installed with a cordless driver, will install 1-1/2 boards in the same time as above.

It's easy as:

- HIDfast can be over 5 times faster than conventional screws.
- HIDfast can do approximately 100 square feet in 10 minutes.
- HIDfast can be over 80% faster than a conventional installation.
- No visible fasteners in the surface of decking, for better appearance.
- No surface fasteners that may pop up.
- No surface penetrations that allow water in, causing rot, splitting and cracking.
- Boards lock to each other and to the joist for the strongest frame possible.
- Patented, strong worry free stainless steel fasteners.
- Collated fasteners for easy handling, and fast loading.
- Patent Pending pneumatic tool, for the fastest and easiest installation possible.
