BTX Bronze Star Exterior Flat Head Star Drive Wood Screws

For interior or exterior use
3/4" to 6" lengths

AC207 Approved!

Bronze Star SKTII Coating

- Rated for excellent corrosion resistance
- Compatible with chemically-treated materials

Type 17 Notched Extra Sharp Point

- Starts quickly without 'walking'
- Reduces need for pre-drilling
- Cuts through composite material on first rotation

Tiny Cuts on the Threads

- Cut through fibrous materials and greatly reduces the torque needed to drive the screw without affecting holding power

High Quality Steel

- Heat treated
- Hardened

Deep, Wide, Sharp Threads

- Cut cleanly & easily
- Provide maximum holding power

Knurled Shoulder

- Reams hole in board being fastened, reducing drag on shank and driving tool

True Flat Head with 16 Cutting Nibs

- Self-countersinking
- Prevents spin-out

The Ultimate Coated Screw!

Star Drive Recess

- Reduces camout and end load
- Twice the torque of Phillips or square drive
- Eliminates spinning and fastener damage
- Two recess sizes (20 & 25) to match the torque requirements of the screw size
- Gives better bit life

THBTX Bronze Star Exterior Trim Head Star Drive Wood Screws

For interior or exterior finish work
#9 x 1-5/8" to 4" lengths

Type 17 Point

- Drives easily
- Reduces splitting

T-20 Drive Size

- For proper torque

Small Head with Cutting Nibs

- Self-countersinking
- Gives a professional-looking appearance

FREE BITS Included!

Bronze Star Drive General Purpose Corrosion-Resistant Screws are for exterior professional operations using hard or soft woods, chipboard and other tough or treated materials. Triple coating has shown over 1200 hours of corrosion resistance in both ACQ and salt spray conditions. Bronze Star coating is compatible with pressure treated lumber and can be used with tannic wood such as Cedar and Redwood.
